TECHNICAL SKILLS

Javascript, Node.js, Express.js, React, MySQL, Sequelize, jQuery, Handlebars, CSS, SASS, HTML5, GitHub, Bootstrap, Firebase, Media Queries, APIs, JSON, AJAX

PROJECTS

NextUp | github.com/JustinL63/NextUp | nextup2018.herokuapp.com
A web app that allows users to keep track of all the albums, movies and books they're interested in.
- Lead role with front end and routing in a group of three, using Javascript, Handlebars and Express
- Designed environment for users to be able to easily manage and add media items
- Built routes to allow users to create and update database records, using MySQL and Sequelize

Gifty | github.com/edcourtney74/Gifty | edcourtney74.github.io/Gifty
A shopping tool that focuses on providing original gift ideas in a visually pleasing way
- Lead role with Javascript in a group of three, using Javascript, jQuery and Firebase
- Took user parameters to create API requests and then display product results
- Enabled users to favorite items and view in a wishlist through localStorage

Pop Trivia | github.com/edcourtney74/Pop-Trivia | edcourtney74.github.io/Pop-Trivia
A fun, timed trivia game that features questions from different pop culture categories
- Sole developer, using Javascript, jQuery, Bootstrap, timeouts and intervals
- Questions are displayed until user answers or timer runs out
- On answer screen, a fun GIF is displayed corresponding to the answer

EXPERIENCE

Reliant Mission | **August 2015 – October 2018** | **Orlando, Florida**
Application & Training Administrator
- Oversaw, made improvements to web-based job application system, more than doubling the amount of applicants the HR team processed within 12 months
- Created new customized web-based job applications, increasing the number of customized applications from two to six within 12 months
- Received recognition from the organization as employee of the year in 2016 for growth and improvement in the logistics process for our employee-skills trainings around the country.

EDUCATION

University of Central Florida
Coding Boot Camp — Javascript Full-Stack Web Development
A 12-week-long boot camp dedicated to building web applications.
